

# Instructor/Extension Agent II to Assistant Professor/Extension Agent III (Extension Animal Science)

College of Natural and Applied Sciences, University of Guam

Extension Animal Scientist, University of Guam: This position is a 12-month tenure-track Extension faculty position in Animal Science within the Agriculture and Natural Resources Unit of the University of Guam Cooperative Extension Service. The successful applicant will have as her/his primary role designated as "Extension and Community Outreach". In this role the faculty member will review past accomplishments and conduct needs assessments to develop a knowledge base of issues and factors affecting a broad spectrum of Animal Science topics for the island and region. This knowledge will be used to plan, develop, implement and evaluate Extension education programs in Animal Science for Guam and the Western Pacific. These programs are driven by needs assessments conducted under 5-year federally approved Plans of Work (POW). As a tenure track Extension faculty member, the successful applicant must also be willing to support the teaching and research efforts of the College of Natural and Applied Science's (CNAS) Agriculture and Life Sciences (ALS) undergraduate program. About College of Natural and Applied Sciences, University of Guam

Structure of the College The mission of a land-grant institution is threefold: 1) research, 2) extension, and 3) teaching. Programs include: 1) the Western Pacific Tropical Research Center (WPTRC), 2) the Cooperative Extension Service (CES), and 3) Resident Instruction (RI). All courses offered for university credit are part of the Resident Instruction mission and are administered through the College of Natural and Applied Sciences. Non-credit university courses are part of the Extension mission and administered through the Cooperative Extension Service. Faculty from WPTRC and CES serve as CNAS teaching faculty for the Agriculture, and Consumer and Family Sciences programs.
